**REMARKS**

The Applicant thanks the Examiner for taking time to discuss the errors noted in the originally allowed as well as the two previously filed Amendment After Allowances. Accordingly, please disregard the Amendments After Allowance sent, via facsimile, on October 8, 2005 and on November 23, 2005 in favor this Corrected Amendment After Allowance.

The Applicant respectfully requests entry of the above amendment(s) to clarify the disclosure of this application. The amendments to claim 39 clarify the six paragraph of that claim which was confusing. Amended claim 39 now recites that the sun gear (SO1) is connectable with one of the input drive shaft (AN), by a second shifting element (B), and with the transmission housing (GG), by a third shifting element (C) while the spider (ST1) is connectable with one of the input shaft (AN), by a fifth shifting element (E), and with the transmission housing (GG) by a fourth shifting element (D).

The amendments to claim 78 clarify the six and seventh paragraphs of that claim which were confusing. Amended claim 78 now recites the input drive shaft (AN) is connectable by a second shifting element (B), with a sun gear (SO1) and by a fifth shifting element (E), with a spider (ST1) while the sun gear (SO1) is affixable with the transmission housing (GG) by a third shifting element (C) and the spider (ST1) is affixable with the transmission housing by a fourth shifting element (D). The above amendments merely clarify any ambiguity in claims 39 and 78 and are based upon the originally filed specification and drawings.

It is respectfully solicited by the Applicant that the Primary Examiner recommend entry and the Commissioner approve the same without withdrawing this case from issue. As this Amendment After Allowance is being filed prior to payment of the issue fee, no petition or official fee is believed necessary.

If any further amendment to this application is believed necessary, the Examiner is courteously solicited to contact the undersigned representative of the Applicant to discuss the same. If necessary, this case will be withdrawn from issue in order to enter the necessary amendment(s).

In the event that there are any fee deficiencies or additional fees are payable, please charge the same or credit any overpayment to our Deposit Account (Account No. 04-0213).

Respectfully submitted,
